1. On three occasions over the past few months of DIA/OS-1A has provided outstanding assistance to the DCI Security Commit on matters related to arms control. In each case, it was necessary, on sho notice, to formulate a security position relative to such proposals as challenge inspections of facilities believed to be engaged in the production or storage of chemical weapons. 2. The proposals also included the establishment of international ris reduction centers. The concepts involved are radically new and pose unprecedented security problems. Appreciation to and to you and for permitting him to take time from DIA business to assist the Intelligence Community. Such teamwork is indeed gratifying.
